

June in Year 5

Our Superstar Learners

Progress Award

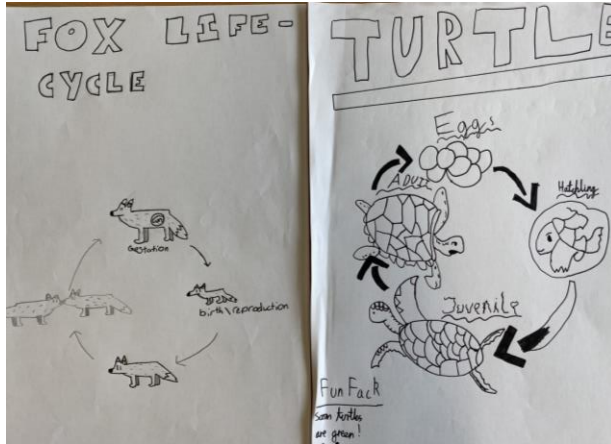

Sofia, Iris, Thomas, Yahav,

Achievement Award -

Mia, Louie, Hidaya and Joseph

Word Millionaire:

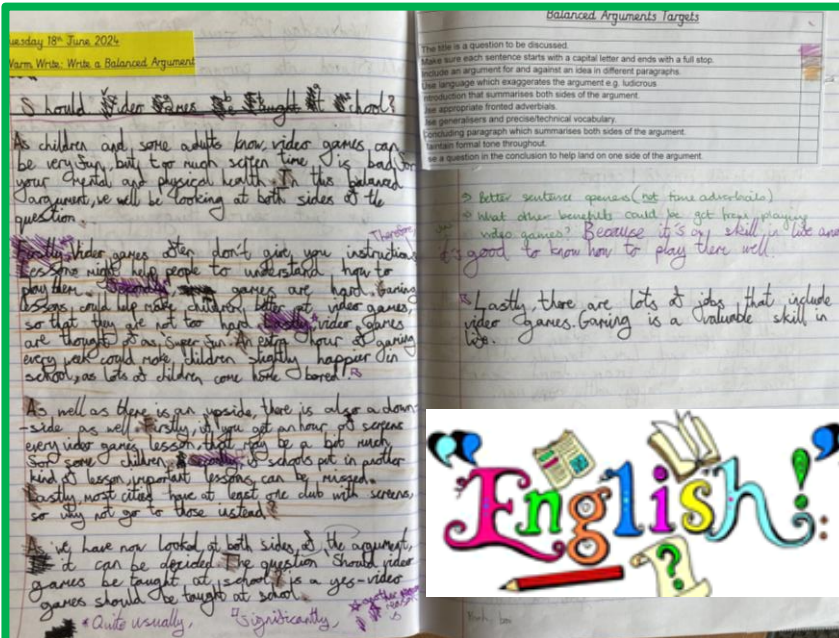

Hidaya

Joseph and Thomas's life cycle posters showing the differences between mammals and amphibians.

We have continued to learn about life cycles, focusing on describing the differences between mammals, amphibians, insects and birds. We have been discussing and describing the differences in their life processes and reproduction.

During our English unit on Balanced Arguments we developed our debating skills considering both sides of an argument. We really enjoyed writing our own texts about subjects we are passionate about. Do you think Video Games should be taught in school, here are Ben's thoughts.

Enrichment

Both classes have had two trips this term. We have explored Ancient Rome at the Museum of Classical Archaeology. We also found out where our

bread comes from on a visit to Cantelupe Farm in Grantchester. Here are some photos of Magdalene making new friends and visiting the grain store.
