

July

in Year 1

In Science, we have continued to revisit our learning about animals. We have learnt about reptiles, mammals and birds. We went outside to see what birds we could identify in the playground. We have also revisited our learning about seasons. We made a poster about Summer and discussed the weather, clothes we wear, months and activities we can do in Summer.

This Month's Super Learners

Selwyn

Lucas, Youmna and Constantin

Homerton

Leon P, George, Ava, Benjamin and Aria

In Geography, we have continued learning about Kenya. We have discussed some of the human features found in Kenya and made comparisons between Nairobi and Cambridge.

In Art, we have been creating bird sculptures using cardboard, paper and paperclips. These looked fantastic and we had lots of fun making them.

In English, we have been learning about diaries. We discussed the features of a diary and read a diary entry written by Paddington about his adventures in London.

We have written our own diary entries about a day at school, as well as a diary entry about our day on the boat trip.

In Guided Reading sessions, we have read 'Actual Size', 'Supertato' and 'Lost and Found'.

In Maths this month, we have been consolidating and applying lots of our learning from earlier this year.

We have revisited our learning on fractions. We found one half and one quarter of shapes, then we found halves and quarters of quantities.

We have also recapped our learning on place value with numbers to 100. We have made 2-digit numbers using different manipulatives and discussed the number of tens and ones in each number. We have also ordered and compared these numbers and found one more and one less.

The final month of Year 1 has flown past, with children keen to start their time in Year 2! We have been reflecting on the year and children have been amazed to see just how far they have come after looking back at their first books. It has been wonderful to see everyone grow this year! We hope you have a fun and relaxing summer! See you next year!

In the last week of school we solved addition and subtraction problems using resources. Finally, we made pictures with shapes and labelled them with the correct vocabulary.
