

# July

## IN YEAR 2

### English!

In our English we have been recounting our wonderful trip to Mountfitchet Castle where we fed goats, launched catapults, practiced our sword fighting skills and explored a motte and bailey castle!

#### THIS MONTH'S SUPER LEARNERS:

We would like to thank all of our students for a really fantastic year! It has been a real joy to work with our children throughout this year and all of the adults who have worked with Year 2 would like to thank them for their wonderful attitude to learning.

### MATHEMATICS

In Kings and Fitzwilliam classes we have been learning all about position and direction. We have enjoyed finding treasure on pirate maps, playing battleships and trusting each other to move us around the classroom.

### SCIENCE

In our Science topic we have been experimenting with our bodies; comparing our height to our arm span and our feet length to our leg length. We have also been making sure we really understand fair testing with our PE equipment!
