

July

in Year 6

In Science, we continued our learning about light. We discussed the meaning of opaque, translucent and transparent and how shadows are impacted by the composition of an object. We further investigated what changes the size of a shadow and recorded the results of our experiments on a line graph.

Year 6 residential

Many of our Year 6 children went on a 3-day residential trip to Bawdsey Manor in Suffolk. They took part in a wide-range of activities including: archery, fencing, canoeing, the giant swing, a challenge course and a zipwire. The children enjoyed spending time outside, challenging themselves and sharing dormitories with their friends. Long-lasting memories were made.

Aladdin

The children absolutely loved sharing all the hard work that they had put into play rehearsals with their adults in their two performances of Aladdin.
